

The Kids DISC assessment is an opportunity for children to learn more about themselves! Inside the report, kids, and the adults around them, will discover how special and unique they are. Each child's bird style (Eagle, Parrot, Dove and Owl) is their superpower, and the Kids DISC assessment helps them be the best that they can be.

Gain a deeper understanding of a child and their behavior with the Kids DISC assessment. Created especially for kids, using language that they understand, the Kids DISC report offers significant insights based on the assessment. With three distinct sections for kids, parents, and teachers, this report contains helpful information for the child and the adults in their lives.

This includes the online assessment followed by an analysis, review and a 45 minute feedback session with a certified DISC Assessor & Coach, that will go over the practical implications of the assessment and how to interpret the results for more effective and engaged school learning and student living. ## The Eagle

**Motto: I got this!**

When you picture an **Eagle**, what do you see? Eagles are powerful birds who fly high in the sky above the forests, lakes, and rivers. They are at the top of the food chain! If they see something they want... WHOOSH! They dive down and get it.

Kids with the Eagle style are confident, determined, and competitive. They say what they think and do what they want. They take charge and take action. They make quick decisions and aren't afraid of risks. They love to win and hate to lose.

## The Parrot

**Motto: We can do it!**

Imagine a Parrot in the canopy of the jungle with all their bird friends. Can you hear the noisy Parrot cawing out loud? Do you see the bright, colorful feathers that attract everyone's attention? Can you picture all the fun that Parrot has flapping around with other birds?

Kids with the Parrot style are enthusiastic, smiley, and social. They love to talk, laugh, and joke around with friends. They try new things and come up with wild ideas. To be a Parrot is to be the life of the party—and a bit of a mischief maker!

## The Dove

**Motto: Let's help each other!**

Picture a white Dove on a shady, quiet tree branch. The Dove coos softly and kindly with a few other birds. The Dove would never hurt anyone. The Dove is there to support other birds and keep them out of trouble.

Kids with the Dove style are thoughtful, helpful, and caring. They love to do nice things for others. They think about how others feel and always try to serve their needs. Doves have big hearts and share their love.

## The Owl

**Motto: Be smart about it!**

Picture an Owl perched in a nest with wide-open eyes. The Owl notices every little detail of the forest—every color, every animal, every gust of wind. The forest is fascinating and fills the Owl with curiosity and questions. The Owl wants to know everything.

Kids with the Owl style are precise, analytical, and careful. They have a reason for everything they do and say. They are organized and consistent. They like to plan ahead and learn everything they can before making decisions.
