Maximize U-is an AI powered Technology Platform for K-12 Schools & Higher-Ed institutions to Maximize Potential, Reduce Teacher Absenteeism & Turnover, Increase Productivity & Loyalty & Enhance Student Achievement.

Due to market trends, post Covid-19 education learning deficits and constrained school budgets, there is a critical need for social-emotional learning, and personal development for school students, administrators, leaders, teachers and early career employees. Altering your pedagogy can be overwhelming, and at times, it can be difficult to see the benefit of changing your practice.

We empower Education Practitioners and leaders to redesign educational systems for deeper learning through innovation, creativity, collaboration, communication, and agency. Through Advanced Reasoning Global Project-Based Learning Academies, and our PBL classroom experience, we provide you with the knowledge and materials to create a learning environment that rekindles your passion for teaching and your student's interest in learning. We provide the crucial elements, skills and strategies to design and implement PBL Projects with fidelity that are authentic, and real world focused.

Through our collaboration with Advanced Reasoning in Education (ARIE), we are strengthening the practices of deeper learning processes and systems globally. After 10 years of impacting 21st-century education and influencing educators and leaders from all over the world, former founding principal of Manor New Technology High School, Steven Zipkes, has expanded his school redesign vision of creativity, deeper learning practices, and systemic change that transformed an idea into a Nationally Recognized, 100% Project Based Learning STEM School.

We offer Project Based Learning (PBL) Training in multiple formats-online self-paced, instructor led live online, in-person live, and in a hybrid format. Our Asynchronous and Live training solutions include- Think Global PBL Academy, Think Global PBL Leadership, Think Global PBL PRECEPTOR Coaching, Think Global PBL Next Steps Academy, Think Global PBL Coaching Internship Residency and more.

Our 3 Day Training covers the following areas:

Day 1- Project Launch, Project Ideation, Entry Events

Day 2- Rubrics, Scaffolding, Assessments, Project Calendars

Day 3- Project Management, Breakout Workshops, Presentations, Critical Friends

PBL Preceptor Coaching After Training for Fidelity and Classroom Success:

After a Think Global PBL Academy many participants and schools look to us for PBL Preceptor Coaching to continue the support in their transformational PBL journey. MaximizeU is able to offer our PBL Preceptor Coaching in an immersive opportunity, involving our expert PBL trainers through onsite visits or virtually to campuses of teachers that have been through our 3-day Think Global PBL Academy.

SCHOOL DEVELOPMENT

Transform you schools through systems, pedagogy, and implementation.

MaximizeU with Think Global PBL's experiences of designing, creating and implementing highly successful 21st Century schools can provide a personalized partnership to help transform schools to 21st Century Schools.

TRANSFORMATION WITH A PURPOSE

Why Think Global PBL Authentic Design Academy?

What sets our training apart from others is our years of experience creating and implementing PBL Projects. Our TGPBL Academies focus on engaging and authentic PBL project design anchored to standards and learning objectives that must allow students to show mastery and transfer of their learning intentions. We show you how to create, implement and manage a PBL project so that you can educate your students with fidelity in an engaging way and not sacrifice learning objectives.

Hands-on, Experiential, Collaborative Experience

Our training is not a "sit and get." It is a deeper PBL training process, and teachers will leave the three days with a project in hand. Our trainings are modeled on our years of PBL classroom experiences. We guide the participants through the deeper processes of each essential element of our project frameworks, while the participants are creating their own projects they will launch during the school year. We encourage teachers to collaborate and build a project together if that makes sense for their specific situation.

Proven Success

Think Global PBL Authentic Design Academies have helped ignite and transform 21st Century Education worldwide since 2008, providing PBL training to approximately 10,000 educators. In Paramatta, Australia we helped transform 3000 teachers and leaders in 75 of their 80 international schools, by offering 3-4 consecutive 200 participant Cohorts per year over 4 years, followed by preceptor coaching in their classrooms for refinement and reinforcement.

In Beijing and Shenzen, China and Hohhot, Mongolia we trained teachers and leaders in schools for authentic PBL transformation for 21st Century education and best practices. In Almaty, Kazakhstan we trained teachers which helped them create a PBL High-Tech school.

We have had teachers from Saudi Arabia, South America, Mexico, Canada and New Zealand attend our Think Global PBL Academies to transform their direct teaching pedagogy to Project Based Learning for a 21st Century Education.

Coaching, courses, curated digital content, Assessments, Safe Spaces and so much more are available with flexible consumption and subscription models. Choose between pre-defined plans, or you can customize your Growth Fund which can be allocated amongst teachers, administrators, students and leaders.

Some of our Courses-

• Special Education Strategies for Teachers & Support Staff

• Parent & Caregiver Strategies for students of determination

• Autism Awareness & Inclusion in K-12 Schools

• Effective Mentoring, Coaching & Crisis Management
